WARNING! TO REDUCE THE RISK OF SERIOUS INJURY, READ THE FOLLOWING SAFETY INSTRUCTIONS BEFORE ASSEMBLING AND USING THE PRODUCT.

- . Please read and understand this entire manual before attempting to assemble, operate ,or install the product.
- . Any assembly or maintenance or the product must be carried out by adults only.
- . Some parts may contain sharp edges.Wear protective gloves if necessary.
- . To prevent damage,place all parts on a level surface during assembly.Add a layer of protective surface if needed.
- . Due to the nature of steel,surface oxidation(rusting) will occur if this protective coating is scratched. This is a natural process.To minimize this condition,it is recommended that care be taken when assembling and handling the product in order to prevent the paint from being scratched.

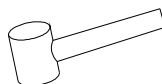

TOOLS REQUIRED

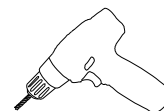

Screwdriver
(Not provided)

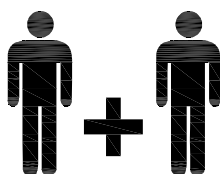

Level
(Not provided)

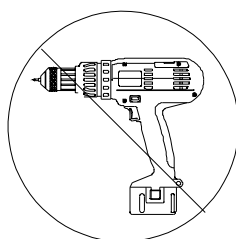

Mallet

Power drill
(Not provided)

2 people

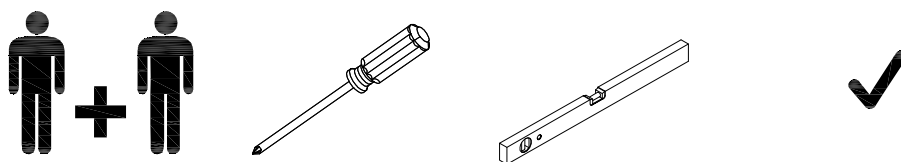

NOTE:Do not over-drill
Be aware of over-drilling.

BEFORE YOU BEGIN ASSMBLY

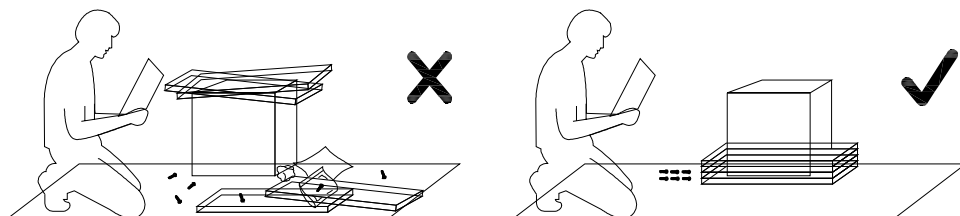

MAKE SURE ALL PARTS ARE PRESENT

Compare all pieces to the parts and hardware lists, and make sure you have all tools required for assembly.

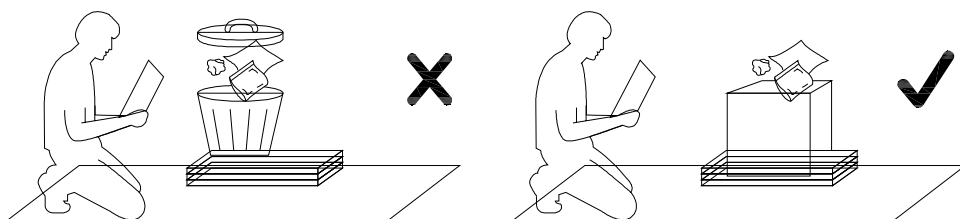

ASSEMBLE IN A CLEARED AREA

Place all parts from the box on the floor in front of you on a clean, dry, level surface to protect the product as it is being built;

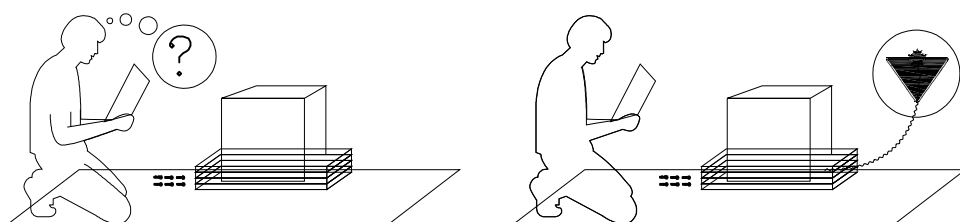

REMOVE PACKAGING MATERIALS

Place packing materials back in the box. Do not dispose of packing materials until assembly is complete.

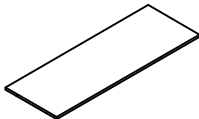

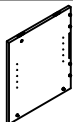

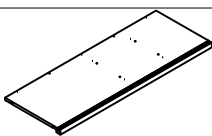

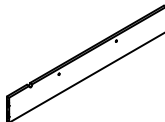

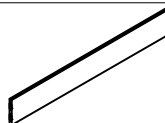

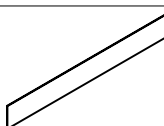

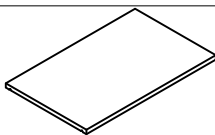

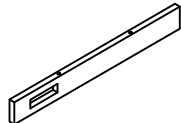

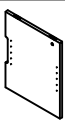

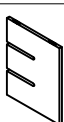

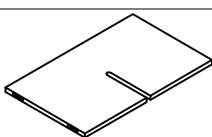

READ EACH STEP CAREFULLY

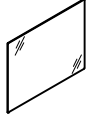

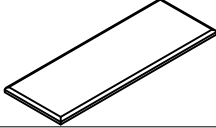

Make sure you understand each step. For any questions, E-mail your request to hecheng88888@outlook.com

ASSEMBLY TROUBLESHOOTING

**BEFORE RETURNING
YOUR PRODUCT**

**HAVING TROUBLE?
LET US HELP YOU!**

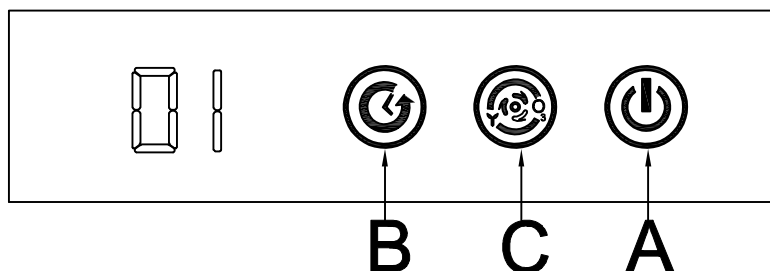

**E-mail your request to
hecheng88888@outlook.com**

if you have any questions regarding assembly or if parts are missing,
DO NOT return this item to the store where it was purchased. Please
E-mail your request to hecheng88888@outlook.com and have your
instructions and parts list ready to provide the model name, part name.

CARING FOR YOUR ITEM

- 1 Check all screws and bolts periodically for tightness. When required, tighten them again.
- 2 Always keep children under close supervision while they are using or around this product. Never leave children unattended.
- 3 For household use only.
- 4 Wipe clean with damp cloth.

INSTRUCTIONS FOR USE OF STINKY ITCH

Air Disinfection Machine Use Instruction

Thanks for selecting the air disinfection machine

Please read the use instruction carefully before using and keep properly for the future review.

Air Disinfection Machine

The company reserves the right of amendment and the right of interpretation for the above clauses

Product principle

The product sterilizes the indoor air and deodorize by the ozone principle which is safe without pollutin. It releases ozone immediately and kills all kinds of bacteria. It is cntrolled by the micro-computer, and sterilize the surrounding at the fixed time.

Ozone has the extremely strong oxidation, catalysis and sterilization ability, it can decompose oxygen automatically in short time under the normal temperature without any residues remained, it is the most clean sterilization method without pollution and dead end which is recognized internationally.

Anion is named as "the air vitamin", which can not only remve dusts sfficiently, but also deodorize except pm2.5, eliminate fatigue and enhance the body immunity.

INSTRUCTIONS FOR USE OF STINKY ITCH

Technical parameters

Product name	Air disinfection machine	Input	5.0---0.48A
Power	12V---1A	Noise	35dB(A)
Ozone output	<100mg/h	Anion	500W
Charging mode	DC5V	Applicable area	5-35m ²

Common troubleshooting guidance

Common problem	Disposal method
The machine can not turn on,the light can not turn on	· Please confirm that if the power supply in the USB interface is plugged or not · Please confirm if the adapter is plugged or powers on · Please confirm if the USB power wire powers on or not

INSTRUCTIONS FOR USE OF STINKY ITCH

Operation mode

1.Light working status:

The green light is on when the anion is working, The red light is on when the ozone is working, and the red light and the green light are always on when the ozone and anion work together. Lights off when both stop working. (When sleep mode, the lights are breathing at a slow pace.)

2.Key functions:

Short press the A button to turn on/off, and the default mode of boot is ozone and negative ion to work together, and the time is 1 minute.

B button short press once for selection time for 5 minutes; short press twice for selection time for 15 minutes; short press 3 times for selection time 30 minutes; at this time, if short press again the selection time will back to 1 minute; short press once again to return to work for 5 minutes, 15 minutes, 30 minutes.

Short press the C button to select mode, touch and short press 1 time to select ozone operation, and then touch and short press 1 time to select negative ions to work, and then touch and press 1 time to select ozone and negative ion work together. Press again to cycle.

If there is no operation within two seconds of selecting the function button, the screen will be locked, if you need to unlock the screen again you should long press the function button you want to select for two seconds.

3.Sleep mode:

When the working time is completed, the device will go to sleep. For example, select 1 minute, and the device needs to be used after 1 minute of work. Sleep for 30 minutes, select a device for 5 minutes to sleep for 2 hours, and select 1 to 5 minutes to sleep for 8 hours. If you select 30 minutes, you will sleep 24 hours. During sleep, the light needs to breathe in a slow pace for 2 to 3 seconds (the light goes from weak to strong, stops for 5 seconds to breathe again). Select the light according to the mode, for example, if ozone is selected, the blue light is selected to breathe. Select negative ions to start breathing, and select ozone plus negative ions to breathe together with green light and blue light.

4.Fans:

When ozone or anions are working, the fan should be turned on, and each time the countdown is over, the fan must be delayed by 20 seconds only stops in seconds.

5.Display:

Countdown with a 2-digit digital tube, and the digital tube turns off in a dormant state. Breathe slow pace of switching on and off lights

INSTRUCTIONS FOR USE OF STINKY ITCH

Applicable range

The intelligent air disinfection machine is not only applicable to sterilize, disinfect and deodorize toilets, pet hospitals, pet houses, hotels, kitchens, cupboards, vehicle-mounted, closets, shoes cabinets.

Purchase notice

1. The product sterilize, disinfects and purifies through ozone and anion, ozone has smell, when using the machine.
2. You shall choose the mode when using the machine, after the ozone mode end. it shall take enough time (about 20-30 minute) to transform ozone to oxygen. if there is still ozone smell after the estimated time, open the door to eliminate the smell.
3. Common method: select the corresponding mode to when going out, use it once at the fixed time before going to sleep, the effect will be more obvious in the next morning.
4. Please understand the operation principle and correct application method in details before using the product, no operation by child

Precautions

1. When using the product, there may be the slight smell like soil after rinsing. this is the normal phenomenon when Ozone works.
2. Keep the air clear and air inlet, do not cover or block with other object, or it will reduce the sterilization effect.
